OUR ACTIVITIES In FARM

WHAT WE ARE DOING ?

ONE OF THE MAIN GOALS OF AL-GHARRAFA FOUNDATION IN AFGHANISTAN IS DEVELOPING AGRICULTURE. AFGHANISTAN HAS APPROPRIATE CLIMATE AND LANDS FOR AGRICULTURE PURPOSE. FOR EXAMPLE: FARAH PROVINCE HAS THOUSAND HECTARES OF UNUSED LANDS. THEREFORE WE HAVE CHOSEN THIS PROVINCE FOR ACHIEVING OF OUR AGRICULTURE GOALS

AL-Gharrafa foundation leased 160 Hectare for 30 years from Islamic Republic of Afghanistan government. This land is located in khair Abad desert of Farah province. Main activities in this land are bird breeding and planting trees. At first ,due to achieving our agriculture goals, It needed to prepare land. Therefore, AGF start necessary construction work in this land. For instance, construction of 5000 m boundary wall, building of hangers, digging of water wells, building guard rooms and guard towers, construction a building for workers, building bathrooms, septic tanks, installing solar system, room for solar system, constructing a building for bird breeding center, constructing a building for falcon, animal cages and some other construction work. It is mentioned more than 50 persons including Engineering board, administrative staff, veterinarians, skilled workers, farmers and guards are working in this farm.

Al-Gharrafa planted 5000 pomegranate saplings in 2016 in agricultural farm.

In the next step, Organization would plant 5000 jujube saplings in 2016 in agricultural farm.

Al-Gharrafa also planted 2200 pistachios in the farm in 2016.

In 2017, organization planted 2,000 grape saplings and 80 Olive saplings in the agricultural farm.
